

**THIS ROAD I'M ON** 3:49

© 2001 &amp; 2013 by Greg Benedetto

**VERSE:**

When I wake up in the morning -- and take my first step outside  
My mind is flowing with possibilities -- and I'm half-excited, half-terrified  
I'm looking back at the choices I have made  
The scenes play time and time again  
Then I turn the corner and I see what lies ahead  
It's all one big adventure as I face another day

**CHORUS:**

This road I'm on to where I'm bound  
From where I've been, I'm lost and found  
I'm always there - I can slow down but I can't stray, or turn around  
because there's nothing I can do to change the past  
I can only learn and hold the lessons fast  
The song goes on, as I move along this road I'm on

**VERSE:**  
I could just hang my head in sorrow and say it just is not my day  
But then I would not see tomorrow - I'd miss the good that came my way  
As I encounter situations - what do I see?  
Is this what I've been waiting for?  
I could just close my eyes and hope it goes away  
But something's calling me to walk on through that open door

**I AM NOT MY BODY** 3:20

© 2011 &amp; 2013 Greg Benedetto

**CHORUS:**

I am not my body - I am not my thighs\* (eyes, etc. fill in the blank)  
What you may see before you is a part of my disguise  
Once you really get to know me, and see my inner soul  
You may have a glimpse of what it is that makes me whole

**VERSE:**  
Where'd we lose track - it's time to get our inner sight back  
See who we are before we get to going too far  
I see in you the being that is trying to come through  
Eye to eye -- toe to toe -- heart to heart -- soul to soul  
One to one -- to one and all

**CHORUS 2:**  
I am not my body - I am not my style  
What I dye and nip and tuck will be gone in a little while  
But I am more than flesh and bone -- I am shining bright  
Now look around and see each others' lives becoming light

**VERSE:**  
A good friend of mine put a different thought in my mind  
What you see when you look at me -- It's given me a new reality  
To see what's in you -- the being that is trying to come through  
I see you -- you see when you see what I see  
And we'll see what we truly are  
I am not my body, etc.

**MY KIND OF PEOPLE** 4:45

© 2002 &amp; 2013 Greg Benedetto

**VERSE:**

So many kinds of people make our world  
You didn't choose your lifestyle for it chose you  
By judging one as wrong or even judging one at all  
We are prisoners of our own fear

**CHORUS:**  
You're my kind of people, living your own kind of life  
You're not afraid to be just who you are  
If you're willing to stand up and stand alone -- not stand apart  
You stand side by side with me in the art  
Of being my kind of people -- my kind of people

**VERSE:**  
Some may fear what is different than them  
Or what is far beyond their understanding  
Handed down through generations - replicated in our minds  
Let's celebrate a new paradigm

**CHANT:**

Intolerance is ignorance  
Prejudice is blindness  
Discrimination nullifies the hope of human kindness

**VERSE:**  
I don't see the color of your skin  
I don't see your sexual orientation  
I don't see your religion -- I don't see your beliefs  
All I see is your light within

**WHEREVER I'M HEADED, I'M HEADED THERE** 2:37

© 2010 and 2013 Greg Benedetto

**VERSE:**

I know a man who got himself a really nice car  
It has a GPS so he won't stray too far  
He calls her Bitchy Betty 'cuz that's what she'll do  
If he goes a different route than what she tells him to  
He just has a feeling if he follows his nose  
In a matter of time he'll get where he must go  
And even if his Bitchy Betty disagrees  
At least she provides him with some company

**CHORUS:**  
We'll throw the map out the window, don't look at no signs  
Turn off the GPS - it'll be just fine  
My inner voice is taking me somewhere  
So, wherever I'm headed, I'm headed there

**VERSE 2:**  
Oh, when I was a boy I had me so much fun  
I would wander the woods and follow the sun  
I didn't use my compass 'cuz I didn't really care  
I just kept walking until I got there  
Now many times I think about the choices I make  
And I trust my gut for the right road to take  
It may not be logical -- it may be insane  
But it's usually the choice with the least amount of pain

**I'M STILL HERE** 3:54

© 2013 Greg Benedetto

Surely, mine is the last voice you'd expect to hear right now  
But in the quiet of your mind, the door was open  
So, please don't mind if I come in and make myself at home  
To tell you what I know and where I've been  
You see, I have felt your sadness  
I have watched you in your grief  
And it saddens me to see you in this way  
So, please don't mind if I begin -- there's so much that I could say  
To tell you where I am and what I've seen

**CHORUS:**  
I'm still here - I never left you  
Think of me as right beside you  
After all that we've been through  
How could I go (where would I go)  
I can see what you see, feel what you feel  
Know that both your life and my life are real  
I am there - you are here  
Final time: Only love, never fear, I'm still here

**VERSE:**  
The veil that comes between us  
Is a whisper, nothing more  
Between this life and the other  
There is nothing more to understand  
There is nothing but believing  
Don't waste any more time a-grieving

**BRIDGE:**  
You might say, "Is this all in my mind?"  
I would say, "Why, of course it is so.  
But just because it's in your mind  
Doesn't mean it's not real, don't you know?"

**A MATTER OF TRUST** 3:45  
© 2012 & 2013 Greg Benedetto

**VERSE:**  
There's a presence deep within me  
And it seems to always be there  
But when something happens to me, or comes my way  
I sometimes wonder how I managed, how this came to be

**CHORUS:**  
It's a matter of trust  
When the voice is calling  
It's just a matter of trust

To know that it is true

**VERSE:**

When you find yourself conflicted  
Do you doubt yourself sometimes  
Or do you just go on, avoiding the decision  
And yet, something's nagging, tugging at your sleeve

**BRIDGE:**  
Give up resistance -- embrace the persistence  
You'll know when you're on the mark  
Don't touch that dial -- it could help for a while  
Talk less and listen now

**TAKE THESE GUNS** 2:34

© 2003 &amp; 2013 Greg Benedetto

**CHORUS:**

Take this gun away, I pray  
Take this gun away  
Take this weapon from my hand  
Take this gun away  
When I use this gun in anger or greed  
Then my soul dies and my heart bleeds  
Take this gun away, I pray  
Take this gun away  
Fill my heart with love and peace  
Take this gun away  
Let the violence within me cease  
Take this gun away  
There's another way, yes, I believe  
I pray to God, my pain relieve  
Take this gun away, I pray  
Take this gun away

**VERSE:**  
I used a gun to steal a car  
That car didn't get me very far  
I shot a gun to celebrate  
The bullet killed a child of fate  
I pointed my gun to steal some cash  
To buy some drugs and get me trashed  
I did the crime - now I'm doing time  
Doing time's no friend of mine  
Time to think about my mistakes  
And the innocent lives that I did take

**I SAY YES** 2:55

© 2010 &amp; 2013 Greg Benedetto

I say yes....Oh I say yes.....

**CHORUS:**  
Yes to consciousness - yes to my true friends  
Yes to nature's music - yes to the road that bends  
Oh I say, yes to loving you, yes to loving me  
Yes to believing, and yes to integrity

**VERSE:**  
Sometimes my mouth - charges ahead of my brain  
I swear I'll catch myself, but then I do it again  
I say "no" before I know it - I got to turn it around  
I'm making a commitment, and putting my foot down, as I say

**CHORUS 2:**  
Yes to vision, yes to spontaneity  
Yes to being challenged, and yes to being free  
Oh, I say, yes to youthfulness, yes to the child in me  
Yes to experience, and yes to what is to be

**VERSE:**  
No one can stop me, though they may analyze  
You don't know 'til you see - through others' eyes  
No one can stop me, 'cept for myself  
It's time to put excuses -- up on the shelf, so I say.....

**CHORUS 3:**  
Yes to freedom, yes to the sun above  
Yes to self expression, and yes to agape love  
Oh I say, yes to happiness - yes to my fellow man  
Yes to my divinity - yes we can, yes we can say  
Yes to the unexpected, yes to the never before  
Yes to the uncomfortable, and yes to less is more  
Oh I say, yes to the renaissance, yes to unity  
Yes to awareness, and  
Yes to my brothers, yes to each other, and yes to humanity!

**FLYING HIGH** 4:28  
© 1995 & 2013 Greg Benedetto

**VERSE:**  
Everywhere I look I see the storm clouds coming on

Rumbling loud and dark along the way  
It seems I need to see the light but there's no happy end in sight  
But in my mind's eye I can see a place where I can go and just be me

**CHORUS:**  
I'm flying high above the shadows,  
the troubled waters far below  
I'm flying high above the raging clouds  
that keep the others flying so-lo  
Now, you, too, can join me - it's in your power to choose  
The strength that we could share would surely  
Burn away the clouds and set us free

**VERSE:**  
Different situations - same conclusions  
Choices to be made day after day  
Do I go along with them who mean well but don't understand  
The reason I need to rise above  
The darkened thoughts so I can just see love

**BRIDGE:**  
The path we take - is our own  
It's been that way - all along  
Fellow travelers who've lost their way  
Don't let them interfere - fly straight and clear  
There's one true voice that is at your command  
The one you can depend on - to take your hand

**TAG:**  
Set us free - set us free - set us free - set us free  
Set us free

**RESOLUTIONS** 3:10

© 2011 &amp; 2013 Greg Benedetto

**VERSE:**

Gonna spend more time with family and get to know my friends  
Gonna spend more time with others than myself  
Write my bucket list and do half the things I never do  
And take my dusty dreams up off the shelf  
I'm gonna lose a bunch of weight - gonna get myself in shape  
Love the way I look and feel from now on  
Gonna throw away some junk - gonna empty out my trunk  
Finally organize my clutter 'til it's gone.

**CHORUS:**  
I've got some New Year's resolutions  
It's a kind of institution  
All it takes is some execution in the coming year  
Beneath the rubble of my stuff, there is a diamond in the rough  
I'll see the meaning of my life come shining through

**VERSE:**  
Gonna burn up all those cigarettes and wash away the pills  
Get addicted to a healthy attitude  
Volunteer in my community and discover something new  
Bathe myself in love and gratitude  
Gonna pay off all my debts  
Gonna give more than I get  
Be more prosperous and generous and kind  
Gonna finish what I start  
Put my music on the charts  
That'd be one giant leap for this mankind

**CHORUS:**  
We've got some New Year's resolutions  
It's a kind of an institution  
All it takes is some execution in the coming year  
Beneath the rubble of our stuff, there is a diamond in the rough  
So let the meaning of your life come shining through

**TAG:**  
Gonna give up procrastination  
I've been putting it off too long  
I'll see the meaning of my life come shining through  
So let the meaning of your life come shining through

**EVERYTHING** 3:13  
© 2010 & 2013 Greg Benedetto

**VERSE:**  
I don't have a house on the ocean -- I don't have all the shiny things  
I have some money, and it may sound funny  
But, it isn't all there is for me  
You see, I have the love of my life and I'm doing what I love to do  
Add my faith and beliefs, it's a sure recipe

For happiness for me and you

**CHORUS:**

I have everything, everything I need right now  
If you shut the door, I wouldn't need any more in my life  
I could worry about the future, and plan for catastrophe  
Or take what I've got, yes, it's a heck of a lot  
And it's enough for you and me  
I have everything, everything I need right now

**VERSE:**  
Some call it the law of attraction, and that sounds attractive to me  
When we let all our stuff get us stuck in the rough  
It feels impossible to break free  
Well, don't you lose faith -- abundance is yours for a song  
On the other side, you'll be in permanent glide  
And realize it was there all along

**BRIDGE:**  
Do the things that you want become the things that you need  
The things that you have become stuff  
Step out of the race and open up the space  
Let your heart and soul overflow with love

**I'M DOING WELL** 2:47

© 2010 &amp; 2013 Greg Benedetto

**CHORUS:**

I'm doing well, I'd say, I'd say  
I'm doing well, I'd say  
Life is being good to me today  
I'm doing well, I'd say

**VERSE:**  
We start out newborn in the now until we grow up with a plan  
It's all about the future, climb as high and fast as you can  
Two steps forward, one step back, the journey doesn't stop  
Strategize and methodize, until you reach the top

**VERSE:**  
At what point do we turn around, and when do we learn fear  
What if things don't work out, and how did I get here  
We start to analyze the past and that's where we go wrong  
I've lived that way for a long time, that's the reason for this song

**VERSE:**  
Everything that I've done, everywhere that I've been  
Has brought me to this point in time - this I've finally seen  
Hindsight may be 20/20, but don't pay it too much heed  
If your past were changed, nothing remains  
And you're back to your misery

**VERSE:**  
Well looky here, what's this I see, a place I've never been  
There's nothing in my rear view mirror, and nothing up ahead to be seen  
And suddenly I feel lighter, my baggage has disappeared  
I'm traveling light and I'm free tonight  
Happiness is in my sights  
I'm not worrying if it's wrong or right  
I'm just happy in the now and here

**PRAY** 2:31

© 2012 &amp; 2013 Greg Benedetto

**CHORUS:**

Pray for our country  
Pray for our leaders whoever they are  
Pray for our families  
Pray for peace  
Pray for our children  
Pray for all those who are lost and afraid  
Pray for each other  
Pray for me

**VERSE:**  
Throughout the ages  
We have relied on ourselves, and our God, and on each other  
Let us now come together in prayer

**VERSE:**  
Whatever the changes  
Rather than brace yourself, have faith and turn within  
Let us now come together in prayer

Gonna burn up all those cigarettes and wash away the pills  
 Get addicted to a healthy attitude  
 Volunteer in my community and discover something new  
 Bathe myself in love and gratitude

Gonna pay off all my debts  
 Gonna give more than I get  
 Be more prosperous and generous and kind  
 Gonna finish what I start  
 Put my music on the charts  
 That'd be one giant leap for this mankind

**CHORUS:**

We've got some New Year's resolutions  
 It's a kind of an institution  
 All it takes is some execution in the coming year  
 Beneath the rubble of our stuff, there is a diamond in the rough  
 So let the meaning of your life come shining through

**TAG:**

Gonna give up procrastination  
 I've been putting it off too long  
 I'll see the meaning of my life come shining through  
 So let the meaning of your life come shining through

**EVERYTHING** 3:13

© 2010 & 2013 Greg Benedetto

**VERSE:**

I don't have a house on the ocean - I don't have all the shiny things  
 I have some money, and it may sound funny  
 But, it isn't all there is for me  
 You see, I have the love of my life and I'm doing what I love to do  
 Add my faith and beliefs, it's a sure recipe  
 For happiness for me and you

**CHORUS:**

I have everything, everything I need right now  
 If you shut the door, I wouldn't need any more in my life  
 I could worry about the future, and plan for catastrophe  
 Or take what I've got, yes, it's a heck of a lot  
 And it's enough for you and me  
 I have everything, everything I need right now

**VERSE:**

Some call it the law of attraction, and that sounds attractive to me  
 When we let all our stuff get us stuck in the rough  
 It feels impossible to break free  
 Well, don't you lose faith - abundance is yours for a song  
 On the other side, you'll be in permanent glide  
 And realize it was there all along

**BRIDGE:**

Do the things that you want become the things that you need  
 The things that you have become stuff  
 Step out of the race and open up the space  
 Let your heart and soul overflow with love

**I'M DOING WELL** 2:47

© 2010 & 2013 Greg Benedetto

**CHORUS:**

I'm doing well, I'd say, I'd say  
 I'm doing well, I'd say  
 Life is being good to me today  
 I'm doing well, I'd say

**VERSE:**

We start out newborn in the now until we grow up with a plan  
 It's all about the future, climb as high and fast as you can  
 Two steps forward, one step back, the journey doesn't stop  
 Strategize and methodize, until you reach the top

**VERSE:**

At what point do we turn around, and when do we learn fear  
 What if things don't work out, and how did I get here  
 We start to analyze the past and that's where we go wrong  
 I've lived that way for a long time, that's the reason for this song

**VERSE:**

Everything that I've done, everywhere that I've been  
 Has brought me to this point in time - this I've finally seen  
 Hindsight may be 20/20, but don't pay it too much heed  
 If your past were changed, nothing remains  
 And you're back to your misery

**VERSE:**

Well looky here, what's this I see, a place I've never been  
 There's nothing in my rear view mirror,  
 and nothing up ahead to be seen  
 And suddenly I feel lighter, my baggage has disappeared  
 I'm traveling light and I'm free tonight  
 Happiness is in my sights  
 I'm not worrying if it's wrong or right  
 I'm just happy in the now and here

**PRAY** 2:31

© 2012 & 2013 Greg Benedetto

**CHORUS:**

Pray for our country  
 Pray for our leaders whoever they are  
 Pray for our families  
 Pray for peace  
 Pray for our children  
 Pray for all those who are lost and afraid  
 Pray for each other  
 Pray for me

**VERSE:**

Throughout the ages  
 We have relied on ourselves, and our God, and on each other  
 Let us now come together in prayer

**VERSE:**

Whatever the changes  
 Rather than brace yourself, have faith and turn within  
 Let us now come together in prayer
